

Bulk Bag Carrier

Model – ISBC

Description

The Fork Mounted Sand Bag Carrier provides a simple and effective method of moving full or partially full sand bags / bulk bags / tonne bags around your site / yard. Due to its extended load centre the potential ripping of the bags on the foot of the mast is eliminated and the built-in fork pockets also provide convenience and efficiency.

Model	Capacity (kg)	Load Centre (mm)	Fork Spread (mm)	Max Fork Size (mm)
ISBC-1	2000	885	600	125 x 50

Standard Features

- Four smooth profile lifting lugs.
- Zinc Plated Heel Pins for safe attachment to truck
- Painted bright orange for safety.
