

## GRP Fortress Step

[Representative image of product]

### Product Description

This fortress wasn't made to keep things out—it was made to keep you in. With a large standing platform, wraparound enclosure, and auto-closing gate, the Fortress™ takes the benefits of a platform ladder and combines them with the lightweight, quick-and-easy setup of a stepladder.

**Simple Setup and Storage** - One movement, one person, one second—that's all you need to handle the Fortress like a pro. Just push the platform handle to deploy or pull it to fold.

**Enclosed Platform** - The extra-large standing platform features a gated, wraparound enclosure that shuts automatically when you step in.

**Ground Cue** - Show your ankles some love. 20% of ladder accidents come from missing the last step on the way down. With the Ground Cue®, putting weight on the bottom step makes an audible and tactile “click,” letting you know you've reached the final step of the ladder.

**Innovative Tool Tray** - Slots, holes, hooks, and a container with cover. This versatile top cap is our best one yet—plus, you can lean on it.

**Oversized feet** - perfect for use on grating:

- Front 65mm width x 75mm depth
- Rear 80mm width x 65mm depth
