

RGH7

HARNESS MULTI-USE Y-SHAPED 5-PT RGH7

A 5-point work positioning harness with the added bonus of upright rescue from the rear D.

Comfortable and controlled hands-free work can be achieved by double clipping into the side D rings. A number of high quality support pads on the legs, waist and shoulders help to reduce the pressure on the wearer's body. Two easily accessible tool loops ensure that tools are conveniently positioned during tasks.

The design of the chest area stops the straps from cutting into the neck.

The harness has numerous work at height capabilities due to the number of attachment points, work positioning, fall arrest, sit suspension and upright rescue.

- / Front, rear, side & ventral attachment points
- / Waist, leg & shoulder support pads
- / Fold back side D rings
- / Fast fit buckles on legs
- / 2 Tool Loops
- / Tail tidies
- / Parking loops
